

## IT'S YOUR KIDNEYS

You have swollen feet and hands? Stiff, aching joints? Sharp shooting, rheumatic pains torturing you? You have aching back, pain in the lower abdomen, difficulty when urinating? Look out! These are danger signals. Trouble is with your kidneys. Uric acid poisoning, in one form or another, has set in. It may lead to dropsy or fatal Bright's disease if not checked. Get some GOLD MEDAL, Haaslem Oil Capsules immediately. They are an old preparation, used all over the world for centuries, combining natural healing oil and herbs, well-known to physicians and used by thousands in their daily practice. The capsules are not an experimental, makeshift "patent medicine," or "bait," whose effect is only temporary. They are a standard remedy, and act naturally, gently and quickly. But when you go to the druggist, insist on getting the pure, original Haaslem Oil in Capsules. Be sure the name GOLD MEDAL is on the box and thus protect yourself against counterfeits.—Advertisement.

## NAVY MAKES A CALL ON YOUNG MEN OF THIS CITY

Uncle Sam is denouncing with scathing sarcasm in official reports received today in Ogden by the recruiting officers "the tendency to encourage enlistments for service in the navy by pseudo patriots who do not themselves enlist and have no idea of doing so; they prefer to 'let George do it'."

Sergeant Ben Cherkov of the local army recruiting station is gratified by the increasing number applying for regular army service, but the number, he says, is nowhere near the average desired and unless there is immediately a large increase in enlistments the result will be most disappointing to the government.

Sergeant E. F. Stodmeister, in charge of navy recruiting, says the response to the appeal for recruits is decidedly unsatisfactory.

Skilled mechanics and men for every branch of the service are imperative needed, but few are offering themselves, despite the allurements of active service—glory and good pay.

War Talk Is Cheap.

Sergeant Stodmeister said further: "Our country is facing a far greater danger than it did during the Spanish-American war. At that time there was a greater display of enthusiasm and recruiting was easier. Our patriotic Americans do not realize the vital importance of training. Patriotism is plentiful, but it is worthless without action, the personal sacrifice. The navy is thousands short of war strength. This condition of inertia, of self-satisfied complacency and the disposition to talk and do nothing must somehow be overcome. Patriotic talk is cheap, but it won't win a war. Our people are sufficiently patriotic, prompt to endorse the government's effort to maintain American rights on the seas against the defiant aggressor, but indorsement is worthless without action. When a man talks for war he should be willing to enlist. His indorsement should take the form of immediate enlistment for service and he should do his war talk under the colors with gun in hand and the uniform on his back.

Self-Sacrifice Required.

"Despite the government's extraordinary efforts, supplemented by the strong support of the press, to recruit the navy to war strength, the men are not coming forward. There is plenty of talk, but no action, and, without militant action, without the self-sacrifice, it means nothing to Uncle Sam. "Skilled mechanics, chauffeurs, men having knowledge of gasoline engines, men of an inventive turn of mind, men having knowledge of or liking electrical work or aeronautics, men who would like to take the sea, who would visit foreign ports and countries and see the world, taking part in the history-making efforts to establish civilization upon a firm foundation and bring about universal peace—all these are sorely needed in the navy. If a citizen is patriotic and desires to support the government, to defend the flag, but is himself too old to enlist, or for any good reason cannot do so, let him bring forward by his personal persuasion one or more recruits. This would be real patriotism. The spread-eagle conversation and public speaking without militant action is absolutely meaningless and contemptible.

Fighters Needed.

"We want recruits. We want fighters, not talkers. We are facing a real war. Real men are needed to fight the battles, to uphold the flag. Among those who are talking so much, who would enlist? The appeal is powerful. The muster drums are sounding. Old Glory needs defense. Let men cease talking and fight for service. That will mean something that will inspire confidence and earn the respect that America is determined to uphold her rights. This is no time to listen to the prattling of parlor patriots. The ships await men of action. Who wants a rare opportunity for a glorious career, for self-sacrificing service that will be remembered in history? Who wants opportunities for first-class training, for education, for rapid advancement?"

The above quotations aren't verbatim, but that is the gist of the recruiting officer's talk. His headquarters are from morning till night. Everyone is welcomed. Information concerning the navy service is gladly given and it is of the most reliable official character.

Sergeant Stodmeister is making extraordinary efforts to attract men of the right type to the naval service. He is naturally dissatisfied with the "cheap big talk" of war and the death of enlistments.

MONTPELIER, Vt., March 25.—The first of the national guard to be mobilized today by the federal service was announced today by the war department.

TRENTON, N. J., March 25.—Preparations for the expected mobilization of the national guard for the military department the past week and when word was received tonight the orders were passed on to regimental commanders with unusual dispatch. The first duty of the guardsmen will be to guard munitions factories. Preparations of the adjutant general's department have extended to the point where the remaining five regiments can be mustered into service the same day orders are received requesting their services.

HARTFORD, Conn., March 25.—The first regiment, Connecticut national guard, called into the federal service by direction of the president, will mobilize tomorrow.

HARRISBURG, Pa., March 25.—Adjutant General Stewart announced tonight that the First and Third Pennsylvania infantry regiments would assemble at their armories in Philadelphia at 7:30 a. m. Wednesday for examination and muster in. Both regiments recently returned from the Mexican border.

BALTIMORE, Md., March 25.—Adjutant General Warfield of Maryland today ordered a third company of the First Maryland regiment to the Pennsylvania and Ohio bridges at the Susquehanna river. The new men will make over 200 to be stationed at the bridges. The Fourth regiment—800 strong—is under arms tonight at its armory in Baltimore. Mobilization is to begin tomorrow morning.

HAVRE DE GRACE, Md., March 25.—Shots were exchanged this evening at 7 o'clock between a sentry on duty at the Pennsylvania railroad bridge over the Susquehanna river and an unknown man in a rowboat who failed to move away from the bridge. The boatman disappeared in the dark. It is not known whether he was struck.

ALBANY, N. Y., March 25.—The war department's request for two regiments of New York troops to be mustered into federal service was received by Governor Whitman early tonight. He immediately directed Adjutant General Stodmeister to call out the Seventy-first New York City and the Second, with companies located in Troy, Cohoes, Schenectady, Gloversville, Amsterdam, Whitehall, Glens Falls, Saratoga Springs and Hoosac Tunnel.

NEW YORK, March 25.—The Fifty-third regiment of infantry, New York national guard, made up of negroes, was given a preliminary inspection today by its officers, headed by Colonel William Hayward of the New York City public service commission. The regiment has been accepted by the state.

BOSTON, March 25.—The Second and Ninth infantry regiments of the Massachusetts national guard were called out late today for guard duty. Both regiments served several months on the Mexican border.

RICHMOND, Va., March 25.—Six companies of the Virginia national guard were ordered on duty today by Governor Stuart for the purpose of guarding important state and municipal utilities and large munitions and shipbuilding plants. Adjutant General Saxe issued instructions also for the Second Virginia infantry to prepare to re-enter the federal service on receipt of orders from the war department.

WILMINGTON, Del., March 25.—Officers of the First battalion of the Delaware national guard called out by the president today assembled at their armory tonight and the four hundred men of the battalion will be mobilized tomorrow. The troops arrived home from the Mexican border on February 2 and their equipment is still intact.

## LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poisoning are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.

It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

You are further warned that cutting at a corn is a suicidal habit.—Advertisement.

## ARMY OF SPIES TO BE ARRESTED

### Every Reservist Has Been Listed by the Secret Service of the Country.

WASHINGTON, March 25.—Every channel of government activity tonight worked under pressure to provide "spy insurance" for the nation in the event of war with Germany.

An army of secret service men and agents of the department of justice spread a dragnet from the Atlantic to the Pacific, and from Canada to the Mexican border, had under surveillance thousands of "spy suspects" and German sympathizers. A declaration of war between the United States and Germany, it was learned tonight, will be followed immediately by wholesale arrests and internment.

Among the thousands under surveillance are a vast number of German reservists caught in the United States at the outbreak of the European war and unable to get back to the German army.

Every reservist has been listed by the secret service agents after a vast amount of labor, and a war declaration would be the signal for their immediate apprehension and internment.

Plans are under way for several great internment camps in various parts of the country, where the German aliens will be placed under guard.

In addition to these reservists, the secret service agents have under surveillance a vast army of naturalized Germans, whose activities during the recent crisis have brought them under suspicion.

Many of these are wealthy and influential men in communities throughout the country. As an example of this class of suspects, it was learned tonight that a secret service guard has been installed about the home and business establishments of a millionaire German-American in Washington.

PROTEST AGAINST BARBAROUS ACTS

PARIS, March 25.—The French government has charged its representatives in all neutral countries to protest against "acts of barbarism and devastation on the part of the Germans" in territory evacuated by them in northern France.

"No more," demanded by military necessities can justify the systematic devastation of public monuments, artistic and historical, as well as public property, accompanied by violence against persons."

Premier Ribot concludes his instructions to the government's representatives in neutral countries by saying that France as well as its allies will not fail to recognize as valid and effective in good faith, operations concerning negotiable papers that the Germans seized in violation of The Hague convention.

SHORTAGE OF COAL REPORTED RELIEVED

BRIGHAM CITY, March 25.—During the past few days the coal shortage, which has been prevalent here since about the first of December, 1916, has been greatly relieved, and no further anxiety is felt by local dealers for this season. However, up to the middle of the week just past conditions loomed up worse than at any other period since the middle of January. Several carloads of coal have reached local depots since Wednesday, and this was immediately distributed over the city in a most judicious manner, everyone being given temporary relief. With the arrival of several carloads of coal since Saturday night local conditions in the fuel line will be much improved the fore part of this week.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets, that the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lumpy" and "heavy." Note how they "clear" the bowels and how they "perk up" the spirits. 10c and 25c a box. All druggists.
